"Participation in ILEA has paid off for The Electrical Association of Philadelphia many times over. I have used ideas from the conference and our colleagues, that have

led to increased revenues and attendance for our programs and events. I can safely say that a substantial part of our success is due to what we have learned through ILEA."

Dwight Price,
Executive Director
The Electrical Association of Philadelphia

International League of Electrical Associations

Who are we?

The International League of Electrical Associations was created in 1936 and has grown to become an organization of professional electrical association and electrical league managers representing more than 30 cities in the US and seven in Canada.

Our Members

Our member organizations are mostly supported by electrical utilities and offer membership to manufactures, distributors, contractors and suppliers in the electrical industry.

Membership Categories

Active Membership - limited to the chief executive staff officer of a membership organization, which represents multiple segments of the electrical industry. Active members may have voting privileges.

Associate Membership - available to individuals, groups, firms, institutions or corporations engaged in all aspects of industrial, commercial, retail and vocational business associated with the electrical industry.

Such members shall have the rights and responsibilities as may be established by the Board of Governors.

Annual Dues

Membership shall be granted to any organization that represents a segment of the electrical industry and agrees to uphold and support the purposes of the League. ILEA Annual dues are based on individual association's or league's annual budgets.

Budgets	Annual Dues
under \$100K	\$250.00
\$100K to 500K	\$300.00
over 500K	\$400.00

Our Mandate

- ◆ To Coordinate and stimulate individual thinking and promote the interchange of thought and experiences among member organization.
- ◆ Familiarize member organizations with the activities being carried on by similar organizations operating in other locations.
- ◆ Deal with general problems common to local electrical market development and affiliated organizations in North America.
- ◆ Create a central body to act as a clearing house in correlating and disseminating information of common interest.
- ◆ To facilitate cooperation with all branches of the electrical industry.
- ◆ Assist in maintaining a high standard of ethics in the electrical industry.
- ◆ Promote coordination in the development of the electrical industry by stimulating within all branches of the industry, and among all employees thereof, a feeling of pride in being part of the industry and a recognition of the interdependence of every member of the industry in the common welfare.

Member Benefits

- ◆ Annual salary survey
- ◆ Annual member trend analysis
- ◆ Membership activity guide & roster
- ◆ Industry calendar of events
- ◆ Communication between members
- ◆ Annual Award of Merit for Professional Service
- ◆ Annual Idea Showcase display
- ◆ Annual conference
